

## Management Responsibilities Within EASA 145 – TR12

### Course Benefits

Part-145 is a complex regulation; however this course is specifically designed to give managers the essentials they need to navigate their way through this regulation without getting bogged down in the complexities of it. This is a one-day interactive workshop.

Delegates will be able to:

- ▶ Highlight their legal responsibilities under Part-145
- ▶ Have a clear picture of where the boundaries of the regulation lie
- ▶ Be able to explain the key elements of the approved MRO regulation and how best it can be used
- ▶ Understand how the regulation has the flexibility in compliance to allow efficient business practice to be continued
- ▶ ***Proactively engage with the quality and regulatory aspects of their organization***

### Course Overview

This practical course will enable you to maximize your understanding of the regulation without having to know its every detail, so enabling you to focus on gaining business efficiency and safety enhancement from your Part-145 approval.

Anyone can read the regulation but the skilled practitioner understands the intent, or how the regulator intended it be applied. This insight allows a different approach to compliance, enabling productive process to be aligned to the regulation, rather than the regulation being a burden.

This course is for managers, it helps carve through the pages of regulation to focus on the key essentials that you need for your day to day role

### Who Should Attend

This is an essentials course designed specifically for:

- ▶ Accountable Managers (Part145)
- ▶ Maintenance Managers
- ▶ Form 4 holders or applicants
- ▶ Senior Maintenance staff

Would also be of benefit to:

- ▶ Senior military personal trying to understand the genesis of MAOS

No specific prior knowledge regarding EASA is required to join the course.

### Learning Outcomes

By the end of the course, participants will be able to:

1. Explain the Part-145 requirements that are applicable to their organization and discuss how these affect business
2. Relate relevant aspects of Part 145 to examples of industry best practice
3. Demonstrate practical examples of Part 145 implementation
4. Explain legal responsibilities under the regulation
5. Discuss how these responsibilities can be discharged in an effective manner, allowing business efficiency and safety to pull in the same direction
6. An understanding of the EASA Part 145 requirement safety objectives and how they are applied in today's world
